

Center for Learning & Development

Nyack employees will have to register for American Heart Association (**AHA**) courses using **Enrollware**.

Staff will be able to access the link for Enrollware through **HealthStream**, under the **Connections** tab in the **Resources** section (see screenshot below).

In Enrollware :

1. You will register for an in-person class.
2. You will receive 2 emails to the email address you provided during registration (you can use either your personal or hospital email) :
 - The first email is a confirmation that you are registered for Part 2 (the in-person class);
 - The second email will be received within 5 business days; it will be from **elearning.heart.org** and will contain a link to access **Part 1, the elearning module**

You **must** complete Part 1 before attending the in-person class. Please bring the certificate of completion to class with you — either a hardcopy or an electronic copy. If you cannot attend the class, you must contact CPRtraining@montefiore.org, **DO NOT** register for another class.

The screenshot displays the HealthStream web application interface. At the top, the user is identified as Jessica B Velez, Nyack Hospital, with a 'Logout' option. The navigation menu includes 'Connections', 'My Team', 'To Do', 'Completed', 'Profile', 'Catalog', 'Event Calendar', and 'Help'. The 'Connections' tab is highlighted with a red box. Below the navigation, the 'My Connections' section is visible, containing three main areas: 'What's New' (with a 'Check back for new connection links' button), 'Learning Links' (with a 'Check back for new connection links' button), and 'Resources' (with a 'Register for ACLS, BLS or PALS' button). A red arrow points from the 'Connections' tab to the 'Resources' section. The footer contains a Sitemap, Certifications, Catalog, Account Settings, and Support links.
