

MNH Health and Clinical Requirements Attestation Form

Academic Institution		Dates of rotation	thru
Clinical Instructor Name			
Phone number		Email address	

The student(s) and clinical instructor(s) listed have confirmed they meet the health and clinical requirements to participate in a clinical experience at Montefiore Nyack Hospital. The school will maintain these records, and the necessary health documents will be sent to MNH within 48 hours of a request.

1. Background check - date from entry into the program, to be repeated if there has been a lapse in service of one year or more (if applicable).
2. Record of a negative 9-panel urine drug screen upon entry to the program, and repeat it if there is a lapse in service of one year or more.
3. Completed annual physical examination within the past twelve months, with no restrictions.
4. Record of annual tuberculosis screening: 2-step TST or Quantiferon TB Gold each year. If the results are positive, follow up with a chest X-ray.
5. Record of positive titers: Measles (Rubeola), Mumps, Rubella, and Varicella.
6. Record of Hepatitis B immunization, or Reactive (positive) Hepatitis B Surface Antibody Titer, or signed Declination of Hepatitis B.
7. Record of Tetanus Diphtheria acellular Pertussis (Tdap) within the past ten (10) years.
8. Annual N95 fit test—per MNH requirements.
9. Record of Influenza vaccination for the current season.
10. Proof of NY State Professional Licensure (if applicable).
11. Current American Heart Association: Basic Life Support certification.
12. Requests for Behavioral Health or Recovery Center rotations require additional clearances. The necessary documents will be provided to interested individuals by a hospital liaison. There will be a \$25 processing fee payable to MNH.
